Subject: FW: Canadian Radium & Uranium Site - CHP Specialized Labor Support
Attachments: Canadian Radium & Uranium Site - CHP Specialized Labor.pdf

Anthony/Shawna,

RST 3 requests the issuance of a Specialized Labor TDD in support of the Removal Assessment being conducted at the Canadian Radium & Uranium Site under TDD No. TO-0006-0053. The total cost for the CHP data validation support through the end of the Contact Year is \$6,600.00 (based on 60 hours).

A breakdown of this cost is attached. The cost estimate was developed based on labor cost only associated with the data validation support. No associated ODCs are required for this support. The OSC's concurrence to this request for Specialized Labor can be found in this trailing email.

If you have any questions or comments please let me know.

Thanks,

Tim

Tim,
I concur with the procurement of the specialized services for the CHP to perform validation on the samples for the Canadian Radium and Uranium site.

Subject: Canadian Radium & Uranium Site - CHP Specialized Labor Support

Dan,
Per your request, RST 3 has procured the services of a Weston Certified Health Physicist (CHP) in support of the Removal Assessment being conducted at the Canadian Uranium & Radium Corp. Site under TDD No. TO-0006-0053. The CHP support is being brought in to validate the radiological parameter analytical results for the soil and rinsate blank data

collected as part of the Removal Assessment of the Site which were submitted to the RST 3-procured laboratory (Pace Analytical). The following samples will be validated by the Weston CHP:

52 Soil
2 Rinsate Blanks
54 Total

The validation of the radiological parameters for the Site will not be able to be completed prior to the end of the current RST 3 Contract Year (*i.e.*, June 30, 2016). The expected completion for the data set received from the RST 3-procured laboratory is approximately July 15, 2016. The Weston CHP conducting the data validation is able to provide 60 hours of support towards the data validation prior to June 30, 2016. The remaining 75 hours and \$8,250.00 will be requested under the new TDD assigned for the next Contract Year. The detailed cost breakdown associated with this specialized labor request can be found in the attached document. **The total cost for the CHP support for the Canadian Radium & Uranium Site through June 30, 2016 is \$6,600.00.**

Please concur to this email if you are in agreement and then I will forward the necessary paperwork over to the Contracting Officer. If you have any questions or comments please let me know.

Thanks,

Timothy Benton, CHMM
